PROFESSIONAL SUMMARY

Frontend Developer in training with hands-on web development experience. At Bloco Construções I work with React, TypeScript, REST APIs and Git/GitHub, building internal systems, responsive interfaces and components. Experienced with JavaScript, HTML, CSS, Supabase and PostgreSQL, applying good practices in code organization, integration and business rule analysis. Looking for a Junior Frontend Developer position to grow and contribute.

TECHNICAL SKILLS

JavaScript · TypeScript · React · HTML5 · CSS3 · REST APIs · Git · GitHub · SQL · Supabase · PostgreSQL · Firebase · Node.js · Vitest · Playwright

PROFESSIONAL EXPERIENCE

Full Stack Developer / Process & Automation Assistant — Bloco Construções Jun 2026 – Present

Development and evolution of internal systems focused on process automation, operational efficiency and digitalization of corporate routines.

Main responsibilities:

- Development and maintenance of frontend features with React and TypeScript
- Implementation of interfaces and components for internal systems and dashboards
- Requirements gathering, business rules and feature validation
- Integration of interfaces with APIs and backend services
- Evolution of Orb RH, a SaaS platform for HR management
- Automation of internal recruitment, onboarding and document management flows
- Security and compliance improvements: LGPD (Brazilian data protection law) and RLS (Row Level Security)
- Protection against IDOR/BOLA, rate limiting and upload hardening
- Code organization and evolution with Git

Technologies: React · TypeScript · Supabase · PostgreSQL · Edge Functions · Git · APIs REST

Technical Support — Fácil Tecnologia Oct 2025 – Jun 2026

- Technical support via Zendesk (chat, email and phone), ensuring efficient user assistance
- Incident analysis and resolution in Sistema Fácil, used by public agencies, civil servants and lenders
- Diagnosis of system failures, data validation and user guidance to fix operational errors
- Logical reasoning and systems analysis to identify root causes
- Escalation and follow-up of technical demands with the responsible teams

Sales Lead — Nutrivet – Pet Shop May 2022 – Sep 2025

- Customer service, negotiation and closing sales
- Store organization and sales team leadership
- Basic technical support and maintenance of the store computers
- Small technology improvements in the workplace

RELEVANT EXPERIENCE

Frontend Developer (Internship) — Fábrica de Software UBTech / Unipê Oct 2025 – Dec 2025

- Frontend Developer on a confidential process gamification project for a public institution
- Development and maintenance of features with React.js, JavaScript, HTML5 and CSS, following componentization best practices
- Responsive and interactive interfaces focused on user experience (UX)
- Requirements gathering, business rules and collaboration in a multidisciplinary team
- Version control with Git, task organization and continuous delivery

RCS Pontual Prime — Study project Jan 2026

Web application (PWA) for recurring school and business transportation: daily passenger check-in, real-time routes, access profiles (admin, driver and passenger), push notifications, GPS tracking and a financial dashboard.

Technologies: React 19 · TypeScript · Vite · Firebase Authentication · Cloud Firestore · Google Maps API

EDUCATION

Systems Analysis and Development (Associate degree) — Unipê – Centro Universitário de João Pessoa Jan 2025 – Dec 2026
